WHEELON XRef: TSD Bd. of Consultants

5 Apr 1962

Memo for Record by EO/DCI

At meeting between DCI and RAdm. Luis de Flores, USNR, Retired, on 5 April 1962 the Director informed Admiral Flores that Dr. Albert D. Wheelon had accepted the position as Assistant Director for Scientific Intelligence to replace Dr. Scoville who had been appointed to fill the newly created position of the Deputy Director for Research.

The DCI pointed out that TSD research and development will be placed under the DD/R.

Adm. de Flores made pitch for retention of TSD Board of Consultants and DCI agreed that such a board should be kept in being and said he would meet with them and discuss R&D at a later date.
